

Red Roo CMS80

Compact size, big performance

The Red Roo CMS80 turns garden waste into valuable mulch. The CMS80 will chip material up to 80mm (3") in diameter. Leaves and smaller branches are processed through the mulcher hopper. The precision engineered CMS80's class leading power and proven design make it ideal for hobby farmers, serious gardeners and the rental industry.

Features

- 14hp (10.5kW) V-Twin Briggs & Stratton Vanguard engine
- 150mm(6") centrifugal clutch
- Solid steel construction utilizing laser cutting & CNC equipment
- Sandblasted & powdercoated finish
- All proven wear points reinforced
- Commercial design for long life

CMS80T

- 50mm (2") quick release coupling & light kit
- Red Roo Flexride™ Suspension

Commercial Environmental Equipment

Red Roo CMS80

available in trailer and four wheel models

Heavy duty rotor assembly

Hopper tilts back for easy access to rotor assembly

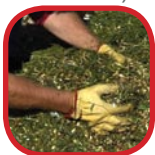

Chipper hopper with spring loaded guard assembly

Mulches leaves and smaller branches

Discharge to ground

Turn garden waste into valuable mulch

Specifications

Engine type	14.0hp (10.5kW) OHV V-Twin Briggs & Stratton Vanguard
Engine drive	2 x A Section belts oil/heat resistant 150mm (6") centrifugal clutch
Length	1600mm (63")
Width	950mm (37")
Height	1360mm (53")
Weight	195 kg (430 lbs)
Chipper knives	2 x reversible, sharpenable
Chipper capacity	80mm (3")
Chip size	6mm (1/4")
Mulcher feed opening	225mm (9") x 125mm (5")
Discharge direct to ground	
	ø 45mm (1 7/8") perforated screen (Standard)
	ø 30mm (1 1/4") small material (optional)
	ø 62mm (2 3/8") large material (optional)
	Mulcher hopper tilts back for easy service
	Red Roo Flexride™ Suspension on trailer model
